

The Sample Chronicle

Chapter 1: Beginnings

This is the first paragraph of the book. It contains a demonstration of hyphenation repair across a wrapped line and it keeps going so the reader can see reconstruction at work. This sentence has an important claim¹ requiring a citation.

A Section Heading

A short paragraph under the section heading, for structure testing.

- First bullet item in an unordered list
- Second bullet item in the same list

1. First numbered item
2. Second numbered item

¹ This is the footnote text explaining the citation above.

Chapter 2: Continuation

Chapter two begins here with an ordinary paragraph of body text that should be reconstructed as a single flowing paragraph node.

A quoted aside, indented and italicized for emphasis.
